

# Alexis Shepard

Born: July 5, 2014

8269 Sugarman Dr  
La Jolla, CA 92037

## EDUCATION

### **Stella Maris Academy, La Jolla — Elementary school**

Completed First - Fourth grades

### **Torrey Pines Elementary, La Jolla — Elementary school**

Currently attending fifth grade

## SPORTS

### **Regulators Girls Fastpitch Softball, San Diego 10U Travel team**

2024 - Current

I am new to the Regulators 10U travel team, I have been practicing shortstop, second base and pitcher with the team, we have our first game together on Friday October 18th, 2024.

### **Clairemont Girls Fastpitch Softball, Clairemont**

2023-Current

I am on my second softball team with Clairemont girls fastpitch softball. In my first season with Clairemont I was a pitcher and also played third base. Our team played excellent together and we finished our season 11-1

### **La Jolla Shores Water Polo, La Jolla**

2023-Current

I have been on the practice team for about one year, I took a break this summer however I plan to continue in the winter or spring depending on my schedule

## AWARDS / ACCOMPLISHMENTS

**Torrey Pines Seminar** I have been accepted into the Seminar/G.A.T.E. program

**2024 San Diego Junior Lifeguards** this year was my first year attending and completing the San Diego Junior Lifeguards program.

**2024 La Jolla Junior Olympics** This year I decided to compete in the Junior Olympics specifically for Softball throw, I won the gold medal for my age group and threw over 10 yards further than anyone else competing this year.

**Student of the month awards** From first to fourth grade I received six student of the month awards for different virtues.

**Noonan 25 yard freestyle** I have attended Noonan swim school for about 2 years and competed in a swim meet earning first place in 25 yard freestyle.

**Monster Metaverse** In July 2023 I recorded a movie at Universal Studios Hollywood and the producer said that the movie should be released by the end of the year in 2024.

## About me - Alexis Shepard

I have always wanted to go to Bishop's and I am so grateful for this amazing opportunity. I've heard so many good things about this school and would absolutely love to attend Bishop's. My favorite subjects are math and science. Math problems are so fun to solve and I love experimenting with different equations. Science is very interesting to me and I love to learn and create different projects like making robots or simply taking apart a little toy robot to understand more about how it works. My family always supports my love for science. One example is that my brother has offered to help me make science projects for fun and my parents help by buying me kits so I can explore the world of science.

Now that I have talked about my love for math, science, and how my family supports my love for science, I would like to talk a bit about who I am. I am not like most kids because every weekday morning I wake up eager to go to school and learn new things. Although my excitement would be on a whole other level if I attended The Bishop's School, I am still very excited about school every morning because I love to problem solve, read, write, do experiments, and basically anything else I do in school. School is just so much fun for me. I enjoy school very much while most kids don't appreciate how amazing school truly is.

I have received many accomplishments in and out of school such as: six student of the month awards from my years at Stella Maris Academy. The student of the month awards were for students who exemplified virtues like empathy and diligence, a gold medal from the La Jolla Junior Olympics softball throw where I threw the ball, I proudly remember that I threw the ball ten yards farther than the rest of the girls I was competing against. A first place ribbon for a 25 yard freestyle swimming race. A player of the game medal from my current softball team, 2 softball trophies, and many other accomplishments.

I recently came across a quote that I really like and now it's one of my favorite phrases, the quote is "Dead ends are just a good place to turn around." This quote is talking about persistence and it reminds me of a time when I was on vacation, pin trading. I was trying to complete a set of Stitch pins that is worth \$150 altogether. I only needed 2 more pins to complete the set and I found someone who had both of the pins I was looking for but they didn't want to trade with me. I was determined and found 2 other people, one of them had a duplicate of the one I needed so I traded them and got the pin. Then, I only needed one more pin but it was the hardest one to get, still I found someone who had the last pin, traded them and completed my set.

In conclusion, Bishop's seems like an amazing school and I would love to be a part of its community. I love reading and I saw the library during our orientation and I am so excited to have an opportunity to have access to the 27,000+ books. I have always loved reading and everything about it so when I saw this I was very excited. I honestly feel like I would have an amazing time if I attended Bishop's and I know that I will be so excited when I get accepted.
